Manufacturer	Product	Contact
Uzin	Sigan 1, 2, 3 Sigan Elements Sigan Elements Plu	www.uzin.com

Please note that only the above-listed adhesives are approved by Aspecta. Please obtain written approval before using an alternative adhesive.

When using the adhesive, please follow the floor-laying recommendations on our website and the adhesive manufacturer's recommendations for use.

When using dry adhesives, please note that the final bond strength will not be the same as the final bond strength achieved with wet-bed adhesives. This is why we always recommend that wet-bed adhesives are used.
